Abdo, Ruy Cesar Camargo -- see Filho, Omar Gabriel da Silva

Abraham, James; Pierce, Calvin; Rinchuse, Donald; Zullo, Thomas
Assessment of buccal separators in the relief of bruxist activity associated with myofascial pain-dysfunction. Fall (3):177-184.

Alpern, Michael
Clinical Review: TMJ biocompatible orthodontic treatment. Winter (4):299-302.

Arvystas, Michael G. -- see Chen, Rong

Athanasiou, Athanasios E.; Melsen, Birte
Craniomandibular dysfunction following surgical correction of mandibular prognathism. Spring (1):9-13.

Baumrind, Sheldon -- Boyd, Robert L.

Blechman, Abe M.
Commentary on: Force generation by orthodontic samarium-cobalt magnets. Fall (3):195.

Bonds, P.W. -- see von Fraunhofer, J.A.

Boyd, Robert L.; and Baumrind, Sheldon
Periodontal considerations in the use of bonds or bands on molars in adolescents and adults. Summer (2):117-126.

Broadbent, Jr., B. Holly -- see Martone, Valerie D.

Bui, Thien Duy -- see Riedel, Richard A.

Buschang, P.H.; Julien, K.; Sachdeva, R.; Demirjian, A.
Childhood and pubertal growth changes of the human symphysis. Fall (3):203-210.

Carstensen, Wolfgang
The effects of different phosphoric acid concentrations on surface enamel. Spring (1):51-58.

Chang, Hong-Po; Kinoshita, Zennosuke; and Kawamoto, Tatsuo
Craniofacial pattern of Class III deciduous dentition. Summer (2):139-144.

Chen, Rong; Zhi, Yang Fen; Arvystas, Michael G.
Advanced Chinese NiTi alloy wire and clinical observations. Spring (1):59-66.

Coffelt, M-T. P. -- see von Fraunhofer, J.A.

Currier, G. Frans -- see Rhodes, Rodney K.

Davidovitch, Zeev
Commentary on: Long-term orthodontic tooth movement response to short-term force in the rat. Fall (3):216.

Demirjian, A. -- see Buschang, P. H.

Duncanson, Jr., Manville -- see Rhodes, Rodney K.

Enlow, Donald H. ; -- see Martone, Valerie D.

Filho, Omar Gabriel da Silva; Ramos, Adilson Luiz; Abdo, Ruy Cesar Camarg
Clinical Article: The influence of unilateral cleft lip and palate on maxillary dental arch morphology. Winter (4):283-290.

Fishman, Leonard S. -- see Silveira, Anibal M.

Forsberg, Carl-Magnus -- see Lundstrom, Anders

Fortson, Weston M. -- see Staggers, Julie Ann

Gerbo, Laurence R.; Lacefield, William R.; Wells, Bobby R.; Russell, Carl M.
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Winter (4):275-281.

Germane, Nicholas -- see Staggers, Julie Ann

Ghafari, Joseph
Problems associated with ceramic brackets suggest limiting use to selected teeth. Summer (2):145-152/

Gibson, Jerome M.; King, Gregory J. ; Keeling, Stephen D.
Long-term orthodontic tooth movement response to short-term force in the rat. Fall (3):211-215.

Grubb, John Eastman
Case Rport: Computer assisted orthognathic surgical treatment planning. Fall (3):227-234.

Hans, Mark G. -- see Martone, Valerie D.

Isaacson, Robert
Commentary on: The gingival smile line . Summer (2):102.

Johnson, B.E. -- see von Fraunhofer, J.A.

Jones, Malcom -- see McGuinness, Niall

Julien, K. -- see Buschang, P. H.

Kapila, Sunil
Commentary on:Facial growth during adolescence in early, average and late maturers. Winter (4):245-246.

Kassebaum, Denise K. -- see Silveira, Anibal M.

Kataja, Matti -- see Peck, Sheldon

Kawamoto, Tatsuo -- see Chang, Hong-Po

Kinoshita, Zennosuke -- see Chang, Hong-Po

King, Gregory
Commentary on: Class I and Class III malocclusion sub-groupings related to headform type. Spring (1):43.

Kokich, Vincent G.
What's new in dentistry. Spring (1):7-8.
What's new in dentistry. Summer (2):89-90.
What's new in dentistry. Fall (3):165-166.
What's new in dentistry. Winter (4):247-248.

Konishi, Harumi -- see Motegi, Etsuko

Korne, Paul Harley -- see Wood, David Paul

Lacefield, William R. -- see Gerbo, Laurence R.

Little, Robert M. -- see Riedel, Richard A.

Loberg, Eric L.
Case Report JB: Treatment of severe temporomandibular dysfunction with a combined orthodontic/surgical approach. Winter (4):303-306.

Lockwood, Petra E. -- see Rueggeberg, Frederick A.

Lundstrom, Anders; Forsberg, Carl-Magnus; Peck, Sheldon; and McWilliam, John
A proportional analysis of the soft tissue facial profile in young adults with normal occlusion. Summer (2):127-133.

Martone, Valerie D.; Enlow, Donald H.; Hans, Mark G.; Broadbent, Jr., B. Holly; Oyen, Ordean
Class I and Class III malocclusion sub-groupings related to headform type. Spring (1):35-42.

Matukas, V.J. -- see Twesme, D.A.

McGonagle, Robert
Sixty-year histoy of The Angle Orthodontist; Spring (1):5-7.

Estimated and true hinge axis: a comparison of condylar displacement. Fall (3):167-175.

Yamaguchi, Kazunori; Nanda, Ram S.
Blood flow changes in gingival tissue due to the displacement of teeth. Winter (4): 257-264.

Zahrowski, James J.; Turley, Patrick K.
Force magnitude effects upon osteoprogenitor cells during premaxillary expansion in rats. Fall (3):197-202.

Zhi, Yang Fen -- see Chen, Rong

Zullo, Thomas -- see Abraham, James

Subject Index

Acid etching
The effects of different phosphoric acid concentrations on surface enamel. Carstensen; Spring (1) 51-58

Adult orthodontic treatment
Periodontal considerations in the use of bonds or bands on molars in adolescents and adults. Boyd, Baumrind; Summer (2) 117-126

Air-powder polisher
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Gerbo, Lacefield, Wells, Russell; Winter (4) 275-282

Angulations
A comparison of the effects of first premolar extractions on third molar angulation. Staggers, Germane, Fortson; Summer (2) 135-138

Anterior cranial base
Differential growth of the female face in the antero-posterior dimension. Nanda, Spring (1) 23-34

Anthropometry
The gingival smile line. Peck, Peck, Kataja; Summer (2) 91-102

Articulator
Estimated and true hinge axis:a comparison of condylar displacement. Wood, Korne; Fall (3) 167-176

Artificial saliva
The effects of artificial saliva and topical fluoride treatments on the degradation of the elastic properties of orthodontic chains. von Fraunhofer, Coffelt, Orbell; Winter (4) 265-274

Asymmetric extraction
The asymmetric extraction decision. Tayer; Winter (4) 291-298

Bolton
The asymmetric extraction decision. Tayer; Winter (4) 291-298

Bonding
The effects of different phosphoric acid concentrations on surface enamel. Carstensen; Spring (1) 51-58

Bone remodeling
Long-term orthodontic tooth movement response to short-term force in the rat. Gibson, King, Keeling; Fall (3) 211-216

Brackets
Problems associated with ceramic brackets suggest limiting use to selected teeth. Ghafari; Summer (2) 145-152

Bruxism
Assessment of buccal separators in the relief of bruxist activity associated with myofascial pain-dysfunction. Abraham, Pierce, Rinchuse, Zullo; Fall (3) 177-184.

Centric relation
Estimated and true hinge axis: a comparison of condylar displacement. Wood, Korne; Fall (3) 167-176

Cephalometrics
Craniofacial pattern of Class III deciduous dentition. Chang, Kinoshita, Kawamoto; Summer (2) 139-144

The gingival smile line. Peck, Peck, Kataja; Summer (2) 91-102

A proportional analysis of the soft tissue facial profile in young adults with normal occlusion. Lundstrom, Forsberg, Peck, McWilliam; Summer (2) 127-134.

Childhood and pubertal growth changes of the human symphysis. Buschang, Julien, Sachdeva, Demirjian; Fall (3) 203-210

Ceramic brackets
Fracture strengths of ceramic brackets subjected to mesial-distal archwire tipping forces. Rhodes, Duncanson, Jr., Nanda, Currier; Spring (1) 67-76

Problems associated with ceramic brackets suggest limiting use to selected teeth. Ghafari; Summer (2) 145-152

Cervical vertebrae
Comparison of mandibular growth with other variables during puberty. Mitani, Sato; Fall (3) 217-222

Chinese in Taiwan
Craniofacial pattern of Class III deciduous dentition. Chang, Kinoshita, Kawamoto; Summer (2) 139-144

Chinese NiTi alloy
Advanced Chinese NiTi alloy wire and clinical observations. Chen, Zhi, Arvystas; Spring (1) 59-66

Class III malocclusion
Craniofacial pattern of Class III deciduous dentition. Chang, Kinoshita, Kawamoto; Summer (2) 139-144

Cleft lip and palate
The influence of unilateral cleft lip and palate on maxillary dental arch morphology. Filho, Ramos, Abdo; Winter (4) 283-290

Condylar displacement
Estimated and true hinge axis: a comparison of condylar displacement. Wood, Korne; Fall (3) 167-176

Craniofacial pattern
Craniofacial pattern of Class III deciduous dentition. Chang, Kinoshita, Kawamoto; Summer (2) 139-144

Craniomandibular dysfunction
Craniomandibular dysfunction following surgical correction of mandibular prognathism.Athanasiou, Melsen; Spring (1), 9-14

Debonding
Thermal debracketing of single crystal sapphire brackets. Rueggeberg, Lockwood. Spring (1) 45-50

Problems associated with ceramic brackets suggest limiting use to selected teeth. Ghafari; Summer (2) 145-152

Deciduous dentition
Craniofacial pattern of Class III deciduous dentition. Chang, Kinoshita, Kawamoto; Summer (2) 139-144

Dental arch dimensions
The influence of unilateral cleft lip and palate on maxillary dental arch morphology. Filho, Ramos, Abdo; Winter (4) 283-290

Dental enamel
The effects of different phosphoric acid concentrations on surface enamel. Carstensen; Spring (1) 51-58

Diagnostic set-up
The asymmetric extraction decision. Tayer; Winter (4) 291-298

Differential growth
Differential growth of the female face in the antero-posterior dimension. Nanda, Spring (1) 23-34

Displacement of teeth
Blood flow changes in gingival tissue due to the displacement of teeth. Yamaguchi, Nanda; Winter (4) 257-264

Eddy current
Blood flow changes in gingival tissue due to the displacement of teeth. Yamaguchi, Nanda; Winter (4) 257-264

Edgewise appliances
Stresses induced by edgewise appliances in the periodontal ligaments — a finite element study. McGuinness, Wilson, Jones, Middleton, Robertson; Spring (1), 15-22
Elastic properties
The effects of artificial saliva and topical fluoride treatments on the degradation of the elastic properties of orthodontic chains. von Fraunhofer, Coffelt, Orbell; Winter (4) 265-274
Elastomeric chains
The effects of artificial saliva and topical fluoride treatments on the degradation of the elastic properties of orthodontic chains. von Fraunhofer, Coffelt, Orbell; Winter (4) 265-274
Enamel surface preparation
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Gerbo, Lacefield, Wells, Russell; Winter (4) 275-282
Epidemiological research
An orthodontic study of TMJ disorders, Part I - epidemiological research in Japanese 6 - 18 year olds. Motegi, Miyazaki, Ogura, Konishi, Sebata; Winter (4) 249-256
Expansion
Force magnitude effects upon osteoprogenitor cells during premaxillary expansion in rats. Zahrowski, Turley; Fall (3) 197-202
Extractions
A comparison of the effects of first premolar extractions on third molar angulation. Staggers, Germane, Fortson; Summer (2) 135-138
Face
A proportional analysis of the soft tissue facial profile in young adults with normal occlusion. Lundstrom, Forsberg, Peck, McWilliam; Summer (2) 127-134.
Facial anatomy
The gingival smile line. Peck, Peck, Kataja; Summer (2) 91-102
Facial form
Class I and Class III malocclusion sub-groupings related to headform type. Martone, Enlow, Hans, Broadbent, Jr., Oyen; Spring (1), 35-44
Facial patterns
Class I and Class III malocclusion sub-groupings related to headform type. Martone, Enlow, Hans, Broadbent, Jr., Oyen; Spring (1), 35-44
Finite element technique
Stresses induced by edgewise appliances in the periodontal ligaments — a finite element study. McGuinness, Wilson, Jones, Middleton, Robertson; Spring (1), 15-22
Fixed appliances
Periodontal considerations in the use of bonds or bands on molars in adolescents and adults. Boyd, Baumrind; Summer (2) 117-126
Fluoride
The effects of artificial saliva and topical fluoride treatments on the degradation of the elastic properties of orthodontic chains. von Fraunhofer, Coffelt, Orbell; Winter (4) 265-274
Force
Force generation by orthodontic samarium-cobalt magnets. von Fraunhofer, Bonds, Johnson; Fall (3) 191-196
Force magnitude effects upon osteoprogenitor cells during premaxillary expansion in rats. Zahrowski, Turley; Fall (3) 197-202
Force duration
Long-term orthodontic tooth movement response to short-term force in the rat. Gibson, King, Keeling; Fall (3) 211-216
Fracture strength
Fracture strengths of ceramic brackets subjected to mesial-distal archwire tipping forces. Rhodes, Duncanson, Jr., Nanda, Currier; Spring (1) 67-76
Gingival blood flow
Blood flow changes in gingival tissue due to the displacement of teeth. Yamaguchi, Nanda; Winter (4) 257-264
Growth
Comparison of mandibular growth with other variables during puberty. Mitani, Sato; Fall (3) 217-222
Hand-wrist radiograph
Facial growth during adolescence in early, average and late maturers. Silveira, Fishman, Subtelny, Kassebaum; Fall (3) 185-190
Head form
Class I and Class III malocclusion sub-groupings related to headform type. Martone, Enlow, Hans, Broadbent, Jr., Oyen; Spring (1), 35-44
Hinge axis
Estimated and true hinge axis: a comparison of condylar displacement. Wood, Korne; Fall (3) 167-176
Hyoid bone
Comparison of mandibular growth with other variables during puberty. Mitani, Sato; Fall (3) 217-222
Indications
Problems associated with ceramic brackets suggest limiting use to selected teeth. Ghafari; Summer (2) 145-152
Interdental space
Blood flow changes in gingival tissue due to the displacement of teeth. Yamaguchi, Nanda; Winter (4) 257-264
Laser flowmeter
Blood flow changes in gingival tissue due to the displacement of teeth. Yamaguchi, Nanda; Winter (4) 257-264
Level of maturation
Facial growth during adolescence in early, average and late maturers. Silveira, Fishman, Subtelny, Kassebaum; Fall (3) 185-190
Load relaxation
The effects of artificial saliva and topical fluoride treatments on the degradation of the elastic properties of orthodontic chains. von Fraunhofer, Coffelt, Orbell; Winter (4) 265-274
Longitudinal growth
Differential growth of the female face in the antero-posterior dimension. Nanda; Spring (1) 23-34
Childhood and pubertal growth changes of the human symphysis. Buschang, Julien, Sachdeva, Demirjian; Fall (3) 203-210
Malocclusion
Class I and Class III malocclusion sub-groupings related to headform type. Martone, Enlow, Hans, Broadbent, Jr., Oyen; Spring (1), 35-44
An orthodontic study of TMJ disorders, Part I - epidemiological research in Japanese 6 - 18 year olds. Motegi, Miyazaki, Ogura, Konishi, Sebata; Winter (4) 249-256
Mandible
Comparison of mandibular growth with other variables during puberty. Mitani, Sato; Fall (3) 217-222

Mandibular prognathism
Craniomandibular dysfunction following surgical correction of mandibular prognathism. Athanasiou, Melsen; Spring (1), 9-14
Maxilla
Force magnitude effects upon osteoprogenitor cells during premaxillary expansion in rats. Zahrowski, Turley; Fall (3) 197-202
Maxillary length
Differential growth of the female face in the antero-posterior dimension. Nanda; Spring (1) 23-34
Myofascial pain-dysfunction
Assessment of buccal separators in the relief of bruxist activity associated with myofascial pain-dysfunction. Abraham, Pierce, Rinchuse, Zullo; Fall (3) 177-184.
Natural head position
A proportional analysis of the soft tissue facial profile in young adults with normal occlusion. Lundstrom, Forsberg, Peck, McWilliam; Summer (2) 127-134.
Orthodontic brackets
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Gerbo, Lacefield, Wells, Russell; Winter (4) 275-282
Orthodontic composite resin
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Gerbo, Lacefield, Wells, Russell; Winter (4) 275-282
Orthognathic surgery
Craniomandibular dysfunction following surgical correction of mandibular prognathism. Athanasiou, Melsen; Spring (1), 9-14
Osteoprogenitor cells
Force magnitude effects upon osteoprogenitor cells during premaxillary expansion in rats. Zahrowski, Turley; Fall (3) 197-202
Periodontal disease
Periodontal considerations in the use of bonds or bands on molars in adolescents and adults. Boyd, Baumrind; Summer (2) 117-126
Periodontal ligament
Stresses induced by edgewise appliances in the periodontal ligaments — a finite element study. McGuinness, Wilson, Jones, Middleton, Robertson; Spring (1), 15-22
Premolars
A comparison of the effects of first premolar extractions on third molar angulation. Staggers, Germane, Fortson; Summer (2) 135-138
Problems
Problems associated with ceramic brackets suggest limiting use to selected teeth. Ghafari; Summer (2) 145-152
Rat
Force magnitude effects upon osteoprogenitor cells during premaxillary expansion in rats. Zahrowski, Turley; Fall (3) 197-202
Sapphire brackets
Thermal debracketing of single crystal sapphire brackets. Rueggeberg, Lockwood. Spring (1) 45-50
Separators
Assessment of buccal separators in the relief of bruxist activity associated with myofascial pain-dysfunction. Abraham, Pierce, Rinchuse, Zullo; Fall (3) 177-184.
Shape memory
Advanced Chinese NiTi alloy wire and clinical observations. Chen, Zhi, Arvystas; Spring (1) 59-66
Skeletal Maturity Indicator (SMI)
Facial growth during adolescence in early, average and late maturers. Silveira, Fishman, Subtelny, Kassebaum; Fall (3) 185-190
Sm-Co magnets
Force generation by orthodontic samarium-cobalt magnets. von Fraunhofer, Bonds, Johnson; Fall (3) 191-196
Sodium bicarbonate
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Gerbo, Lacefield, Wells, Russell; Winter (4) 275-282
Soft tissue analysis
A proportional analysis of the soft tissue facial profile in young adults with normal occlusion. Lundstrom, Forsberg, Peck, McWilliam; Summer (2) 127-134.
Space available
The asymmetric extraction decision. Tayer; Winter (4) 291-298
Stages of Maturation (SMI 1-11)
Facial growth during adolescence in early, average and late maturers. Silveira, Fishman, Subtelny, Kassebaum; Fall (3) 185-190
Standing height
Comparison of mandibular growth with other variables during puberty. Mitani, Sato; Fall (3) 217-222
Stress analysis
Stresses induced by edgewise appliances in the periodontal ligaments — a finite element study. McGuinness, Wilson, Jones, Middleton, Robertson; Spring (1), 15-22
Superelasticity
Advanced Chinese NiTi alloy wire and clinical observations. Chen, Zhi, Arvystas; Spring (1) 59-66
Symphysis
Childhood and pubertal growth changes of the human symphysis. Buschang, Julien, Sachdeva, Demirjian; Fall (3) 203-210
System of Skeletal Maturation Assessment (SMA)
Facial growth during adolescence in early, average and late maturers. Silveira, Fishman, Subtelny, Kassebaum; Fall (3) 185-190
Temporomandibular joint disorder
An orthodontic study of TMJ disorders, Part I - epidemiological research in Japanese 6 - 18 year olds. Motegi, Miyazaki, Ogura, Konishi, Sebata; Winter (4) 249-256
Tensile bond strength
The effect of enamel preparation on the tensile bond strength of orthodontic composite resin. Gerbo, Lacefield, Wells, Russell; Winter (4) 275-282
Third molar
A comparison of the effects of first premolar extractions on third molar angulation. Staggers, Germane, Fortson; Summer (2) 135-138
Time lag
Comparison of mandibular growth with other variables during puberty. Mitani, Sato; Fall (3) 217-222
Tooth movement
Long-term orthodontic tooth movement response to short-term force in the rat. Gibson, King, Keeling; Fall (3) 211-216
